

Vacancies Announcement for Mission Innovation India Unit set up by Department of Biotechnology, GOI at ICGEB, New Delhi

On behalf of Government of India, Department of Biotechnology is coordinating Mission Innovation activities in India. For this, an extramural programme for Mission Innovation India Unit has been set-up at ICGEB, New Delhi.

Mission Innovation (MI) Programme was initiated by India along with 21 countries on the sideline of Paris convention in November 2015 to accelerate clean energy innovation. The governments of these countries pledged to double their governmental and/or state-directed clean energy research and development investment over five years.

MI India Unit at ICGEB coordinates the activities of MI initiatives of India with other partnering countries as well syncs with the main /apex Mission Innovation Secretariat worldwide. The MI of India encourages liaising between public-private partnership in India and the other partner countries for various collaboration activities, share information and coordinate with interested potential business investors. This will help in strategic planning and foster implementation of MI objectives for clean energy and management for public and private funding dedicated in this area.

MI of India is responsible for looking after the progress in the area of eight Innovation Challenges, i.e., Smart Grids, Off-Grid Access to Electricity, Carbon Capture, Sustainable Biofuels, Converting Sunlight, Clean Energy Materials, Affordable Heating and Cooling of Buildings, and Renewable and Clean Hydrogen Innovation Challenge.

Following vacancies are available at MI India Unit. These positions are purely of contract basis initially for one year, extendable up to 2 years based on yearly Performance review.

Research Associate (1 Position) – The incumbent should have M.Tech/ PhD in the area of energy, environmental sciences, policies or related subject. 1-3 years of post-M.Tech/PhD and/or IT, management experience will be of added advantage.

The incumbent will be involved in conducting meetings, data management and data analysis to fulfil MI objectives.

Salary – Rs 52,000 PM inclusive of all allowances.

Assistant (1 Position) – The incumbent must be a 12th pass. Should have prior experience in putting the records and diary maintenance.

Salary – Rs 20,000 PM inclusive of all allowances.

Application to the above posts should be sent via email only along with the name of the post in the subject area, latest curriculum vitae and names and addresses of three referees. Application to be addressed to Coordinator, Mission Innovation India, ICGEB, New Delhi and sent to email ID **info@mission-innovation-india.net** latest by date Nov 25th, 2018.
